

ASSEMBLY BILL

No. 948

Introduced by Assembly Member Olsen

February 22, 2013

An act to amend Section 47614.5 of the Education Code, relating to charter schools.

LEGISLATIVE COUNSEL'S DIGEST

AB 948, as introduced, Olsen. Charter schools: school facilities: Charter School Facility Grant Program.

Existing law requires the State Department of Education to administer the Charter School Facility Grant Program, provides that the grant program is intended to provide assistance with facilities rent and lease costs for pupils in charter schools, and states the intent of the Legislature that not less than \$18,000,000 annually be appropriated for purposes of the grant program. Existing law requires, subject to the annual Budget Act, eligible schools to receive an amount up to \$750 per unit of average daily attendance, as specified, to provide an amount of up to, but not more than, 75% of the annual facilities rent and lease costs for the charter school. Existing law requires the department, among other requirements, to inform charter schools of the grant program and to determine grant program eligibility based on specified factors, including, among other factors, a charter school's preference in admissions, the geographic location of the charter schoolsite, and pupil eligibility for free and reduced-price meals, as specified. Existing law prohibits funds appropriated for purposes of the grant program from being apportioned for units of average daily attendance generated through nonclassroom-based instruction, as defined, requires that funds appropriated for purposes of the grant program be used for costs

associated with facilities rents and leases, and requires an existing charter school that is relocating to give an admissions preference to pupils who reside in the elementary attendance area into which the charter school is relocating in specified circumstances.

This bill would instead provide that the grant program is intended to provide assistance with facilities costs for pupils in charter schools and would require, subject to the annual Budget Act, an eligible charter school to receive the lesser of the actual eligible annual facility costs, \$750 for a classroom-based charter school, or \$375 for a nonclassroom-based charter school. The bill would also require the department to provide a grant program application to charter schools by July 1 of each fiscal year and would repeal the requirement that grant program eligibility be determined based on, among other factors, a charter school's preference in admissions. The bill would require eligibility for the grant program to be expanded, as specified, if funds remain after charter schools that meet the existing free and reduced-price meals threshold are funded, would require funds appropriated for purposes of the grant program to be used for costs associated with facilities rents, leases, purchases, and facility-related debt service, and would repeal the requirement that a charter school that is relocating give an admissions preference to pupils who reside in the elementary attendance area into which the charter school is relocating in specified circumstances. The bill would repeal the Legislature's statement of intent that not less than \$18,000,000 annually be appropriated for purposes of the grant program and would require the annual audit of a charter school to include specified information related to the grant program.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
